

Cancer Patient Family Network

Partners in Cancer System Improvement

If you or someone close to you has cancer, or has had cancer in the past, you may want to get involved with the Cancer Patient Family Network (CPFN). The CPFN is a program of Nova Scotia Cancer Care Program that connects cancer patients, survivors, family members, and friends with opportunities to improve the cancer system. As a member of the CPFN you will have opportunities to participate in focus groups and committees, complete surveys, and review patient education resources.

Sound interesting? Why not get involved today? To become a member of the CPFN please complete the form below and mail, email or fax it to:
