Need a family practice?

Visit needafamilypractice.nshealth.ca or call 811 to register.
If you don’t have access to a family practice, such as a family doctor or nurse practitioner, you can visit our self-service website at needafamilypractice.nshealth.ca or call 811, Monday to Friday, 10 a.m. to 6 p.m., to be added to a provincial list.

You will be contacted by Nova Scotia Health Authority or a family practice in your community when a spot becomes available. Time to receive a call back will vary based on your community and the availability of providers.

Having one provincial list for Nova Scotians needing access to a family practice provides one convenient point of contact.

For more information, or to update your contact information at any time, call 811 or visit needafamilypractice.nshealth.ca
