Stool Collection for Ova and Parasites

Instructions

• You must follow the special rules on the right-hand side of this pamphlet.

• Your doctor has given you a form for this test. This form is called your requisition.

• Use only the specimen bottle given to you by your doctor, local lab, or blood collection clinic. It should have a yellow top and clear liquid inside.

• If you have to collect stool (poop) for culture and sensitivity (bottle with green top and pink liquid inside), do it at the same time as this collection.

• If you have to collect more than one yellow-top bottle, collect each on a different day.

• Use only a ballpoint pen when writing on the specimen bottle.

• Keep the specimen in the fridge until you can bring it to the lab.
1. Write your **full name**, your health card number, and the date and time of collection on both the requisition and the specimen bottle.

2. Collect your stool (poop) in a clean, dry container. **Do not let your stool touch any urine (pee) or the toilet water.**

3. Use the scoop inside the lid of the specimen bottle to add stool until it reaches the fill line.

4. Use the same scoop to mix the stool with the fluid in the bottle.
5. Screw the lid on tight and put the bottle in the fridge until you can take it to the lab.

6. Bring each filled specimen bottle and requisition to an approved drop-off site **no more than 24 hours after you finish the collection** (see back cover for sites).

**Special rules**

- There are rules you must follow for 5 days before you collect stool for ova and parasites.
- For 5 days before collecting your stool, avoid:
  - Mineral oils
  - Bismuth (Pepto-Bismol®)
  - Barium
  - Kaolin
  - Attapulgite (Kaopectate®)
  - Laxatives
Each requisition must have:
› Your full name and date of birth
› Your health card number
› Your doctor’s full name and address
› The names of all antibiotics you are taking
› The names of all countries outside of North America that you have visited (or emigrated from) in the past 12 months
› Date and time of stool collection
