

## WHEN SHOULD I CALL THE MS CLINIC?

- If you develop new MS symptoms or if you have a significant worsening of your usual MS symptoms. You may be having a relapse.
- If you are diagnosed with an infection.
- If you are experiencing a worsening of your health or are diagnosed with a new health problem that requires treatment with a new medication or a change in a medication that you are already taking.
- If you misplace your blood work requisition or if you did not receive one. We will send you a new requisition.
- The MS Clinic is not an emergency or urgent care service. If you are having a health emergency, call **911** or go to your nearest emergency department.
- For non-urgent health concerns, other than MS, call **811**, see your primary care provider (family doctor or nurse practitioner), or visit a local walk-in clinic.
- If you need urgent mental health care, call the Provincial Mental Health and Addictions Crisis Line at **1-888-429-8167**.
