

**Additional Return Instructions for Community Based Organizations and High Schools  
(Pick Up Locations)**

Important: Please complete the following steps before completing the Returning Self Collected Swabs and Urine Sample Instructions.

Step 1.

- Carefully label your sample tube(s) with your information as indicated on the online intake form.
- Please confirm the information is correct and easy to read.

Step 2.

- Place the completed label on each sample tube as shown.

Step 3.

- Carefully complete the highlighted sections and indicate the parts of the body that were tested on the blood requisition form.
- Please confirm the information is correct and easy to read.

Step 4.

- Place the completed blood requisition form into the shipping box to be mailed to the lab with your samples.
