

Rocaltrol® (Calcitriol) and Hemodialysis

Rocaltrol® (Calcitriol) and Hemodialysis

What is Rocaltrol® (calcitriol)?

- Rocaltrol® is a medication with the active ingredient calcitriol. This is a form of vitamin D that can be used by the body.
- Calcitriol helps your body control your calcium and phosphate levels. Calcium and phosphate are needed to build healthy bones.
- It comes as a capsule (pill) or as a liquid.
 - › With capsules, you will take a 0.25 mcg or 0.5 mcg dose (amount). With liquid, you will take a 1 mcg/ml dose.

Why does someone on hemodialysis need this medication?

- People get vitamin D from sunlight, and from eating oily fish and milk products. People with kidney disease cannot change enough vitamin D into calcitriol.
- This can cause:
 - › low calcium levels in the blood.
 - › weaker bones.

- Rocaltrol® raises the amount of vitamin D in your body that can be used.

How do I take Rocaltrol®?

- Take this medication exactly as your primary health care provider (family doctor or nurse practitioner) tells you.
- **Do not** stop taking Rocaltrol® before talking with your primary health care provider.
- If you forget to take a dose, take it as soon as you can. **Do not double the dose if it is almost time for your next dose.**
- This medication can:
 - › be taken with water.
 - › be swallowed without chewing.
 - › be taken with or without food.
- If your stomach feels upset after taking this medication, try taking it with food.

Are there any side effects?

- **Common side effects are:**
 - › Nausea (feeling sick to your stomach)
 - › Headaches
- **Less common side effects are:**
 - › Constipation (not being able to poop)
 - › Vomiting (throwing up)
 - › Loss of appetite, or not wanting to eat
 - › Trouble sleeping
 - › Peeing more than usual
 - › Drowsiness (feeling tired or sleepy)
 - › Dry mouth
 - › Muscle or bone pain
 - › Irregular heartbeat
 - › Red eyes

How do I store this medication?

- Store capsules:
 - › at room temperature (15 to 25 °C).
 - › out of reach of children and pets.
 - › away from moisture and light. A bathroom medicine cabinet is a good place.
- Store liquid:
 - › at room temperature (15 to 25 °C).
 - › out of reach of children and pets.
 - › away from sunlight.
