About the Green Sleeve

What is a Green Sleeve?

The Green Sleeve is a place for you to keep important documents. These documents can help you share your health care plans, goals, and care wishes with your health care providers.

Who should have a Green Sleeve?

Anyone with a life-limiting illness should have a Green Sleeve.

What should I keep in my Green Sleeve?

The following are examples of forms to keep in your Green Sleeve:

- Patient-Centered Priorities and Goals of Care (GOC) form
- Emergency Health Services (EHS) Special Patient Program (SPP) care plan
- Personal Directive
- Nova Scotia Health Expected Death at Home form

Please ask your health care provider for more information about any of these documents.

What should I do with my Green Sleeve?

	
<ul style="list-style-type: none">• At home, keep your Green Sleeve somewhere easy to find, like on top of the fridge. If you have a palliative care binder, you may keep it in the front of the binder.• Show your Green Sleeve to health care providers who give care in your home, including paramedics if emergency help is needed.	<ul style="list-style-type: none">• Take your Green Sleeve to your health care appointments. Take it with you if you go to the Emergency Department (ED).<ul style="list-style-type: none">> If it is updated while there, be sure to bring it home with you.• The forms in your Green Sleeve have important information and instructions. Review them regularly with your health care providers, and before tests or treatments.
