Blended Diet
Blended Diet

It is important to eat well to take care of yourself. When your jaws are wired or you have elastics in place, you will need to make a few changes to your diet to get the nutrition your body needs. This booklet provides tips to help you get the nutrition you need.

Good nutrition is important to:
1. Help your body heal
2. Prevent infection
3. Maintain your body weight

The diet
• Your diet will be made up of liquids and blended food for 3 to 8 weeks. You will need a blender, food processor, or hand mixer.
• It is important to eat at least 3 meals and 3 snacks every day.
• Some drinks, like coffee, tea and pop are not nutritious. Drink these only after you have finished your meal or snack. If you are thirsty, choose milk or nutritional drinks more often.
If your jaw is wired
You may need to follow a liquid-only diet to allow food to pass through the space you have between your teeth and wires. We recommend that you strain all soups and drink smoothies and/or milkshakes that do not have any berry seeds.

If you have elastic wires on your teeth
You may have enough space for thicker food that is smooth and the texture of baby food in addition to liquids.

Tips for eating
• Do not use straws after surgery as this will build up pressure in your mouth.
• A juice box with a spout can be used. Turn it upside down and squeeze the box to push food into the mouth. This works well when there is a missing tooth or space between teeth.
• You may also want to try a large syringe or a cake decorating bag. Use this to place food near an opening in your teeth. (Syringes may be given to you prior to your hospital discharge. If you need more, please visit your local drugstore.)
If you have diabetes

• Make sure you eat at regular times. Do not skip meals.

• You may find it helpful to drink special drinks for people with diabetes, like Glucerna® or Boost® Diabetic. Choose these drinks as a snack or a part of a meal. You can buy these drinks at drugstores.

• Limit high sugar foods like sugar, honey, molasses, syrup, regular pop, and juices (both sweetened and unsweetened).

If you are lactose intolerant

• You can substitute low-lactose milk (like Lactaid®) or soy milk in recipes.

• If you can eat yogurt, choose a higher fat brand.

• Try sherbet in place of ice cream.

• Many nutrition supplements (like Ensure® and Boost®) are lactose-free. You can drink these for extra calories and protein.

• Do not use skim milk powder.
If you follow a vegan diet
• Choose non-dairy milks in recipes or to drink. Soy milk will give you more protein than other types of milk (such as rice or almond).
• Use tofu or nut butters in smoothies for extra protein.
• There are also vegan protein powders available. Look for those made with a blend of proteins. Some to try include Vega and webber naturals® 100% Natural Vegan Protein powder.

If constipation is a problem
• Drink prune juice.
• Drink more liquids.
• Add Benefibre® (1-2 tsp up to 3 times per day) or ground flax (up to 5 tbsp per day) to drinks and soft foods:
  › Add to water, milk, coffee, pudding, hot cereal, applesauce, yogurt, soups, or pasta sauces
  › Do not use in very acidic foods or carbonated drinks
• Eat more blended fruits, vegetables, or whole grain noodles.
• Look for nutrition supplements with fibre (try Ensure® Plus Fibre).
• Add more activity to your day, if you are able.
Important things to remember at home
To prevent cavities or an infection in your mouth, it is important to rinse your mouth well after you eat or drink, every time. Your doctor may order a special mouth rinse. If not, you can use salt water (1/2 tsp salt mixed in 2 cups [500 ml] water).

Weigh yourself once a week. If you lose more than 5 pounds a week for 2 weeks, you need to eat more. Try the ideas in this booklet to add more calories. You may also want to drink extra nutrition supplements every day. Call the dietitian for ideas if you continue to lose weight.

For your safety
• Keep all homemade drinks and blended food in the fridge for up to 24 hours. After that, you can freeze food or throw it out.
• Store-bought drinks that have been opened should only be kept for 24 hours in the fridge.
• Do not use raw eggs in recipes. You can use Egg Beaters®, which have been pasteurized. These are available in the frozen or refrigerated section of your grocery store.
Nutritional drinks you can buy

Homemade nutritional drinks can give you the nutrition your body needs. You may also want to try store-bought nutrition drinks. These are especially helpful if you will be away from a fridge for more than 2 hours or if you do not feel up to making your own drinks.

Carnation Breakfast Essentials®, Boost®, Ensure®, and PC® Nutri-total are some of the nutrition drinks you can buy at grocery and drugstores.

If you are not eating very much or you are losing weight, look for supplements with “Plus” on the label. These drinks have extra calories and protein. Each one is about the same as drinking 1 1/2 the amount of the regular drinks.

Store-bought drinks do not have to be kept in the fridge, unless they have been opened. Once opened, you can keep them in the fridge for 24 hours. After that, throw them out.
Sample Menu

Breakfast
› 1/2 cup (125 ml) applesauce blended with 1/4 to 1/2 cup (60-125 ml) apple juice
› 1/2 cup (125 ml) Cream of Wheat® thinned with 1/2 cup (125 ml) whole milk
› 1 cup (250 ml) store-bought eggnog

Snack
› 1 cup (250 ml) Carnation Breakfast Essentials®

Lunch
› 1 1/2 cups (375 ml) all-in-one blended meal (see page 14)
› 1 cup (250 ml) whole milk
› 1/2 cup (125 ml) fruit cocktail blended with 1/2 cup (125 mL) yogurt

Snack
› 1/2 cup (125 ml) butterscotch pudding mixed with 1/4 to 1/2 cup (60-125 ml) whole milk

Supper
› 1 cup (250 ml) blended cream of vegetable soup
› 1 cup (250 ml) blended macaroni and cheese
› 1 cup (250 ml) whole milk
› 1/2 cup (125 ml) peaches blended with 1/2 cup (125 ml) ice cream

**Snack**

› 1 cup (250 ml) Carnation Breakfast Essentials® blended with 1/2 cup (125 ml) ice cream and fruit

Blending suggestions for this sample menu start below. Recipes start on page 15.

**Blending suggestions**

Mix solid foods with your choice of liquids. To make food thinner, add more liquid.

Blending tips

- Most foods blend well, but avoid foods with nuts, seeds, or coconut.
- Foods with tough skins and hulls (like corn or split lentils) can leave particles that may get caught in the wires.
- You may find it helpful to strain foods to remove particles.
- Keep baby food on hand for times when you don’t feel like cooking. “Junior” meals should be blended. Try adding some spices for flavour as baby foods have no salt added.
- Chunky-type soups also blend well. Add 1/4 to 1/2 can of whole milk or broth to thin it out.
- Melt cheese and solid fats (like butter or margarine) before blending. This will make it easier to blend.

Smoothie-making tips

- Freeze the fruit for a frostier drink (bananas work well).
- Almost all fruit tastes good in a smoothie, except for grapes.
- Avoid using fruit sweetened in syrup – this may make the drink too thick and sweet.
- If the drink is too thick, try adding more milk.
- If the drink is too thin, try adding more fruit.
- If the drink is too tart, try adding sugar, honey, or 2 tbsp silken tofu.
- If the drink is too sweet, try adding lemonade, lemon, or 2 tbsp silken tofu.

Ways to add calories

Choose foods high in calories to get the most nutrition and energy from every bite. This will help you gain or maintain weight. If you are losing weight, try ideas from the table below to add more calories to your diet.

<table>
<thead>
<tr>
<th>Foods to use</th>
<th>Add to/use in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Butter or margarine</td>
<td>• Potatoes, mashed potatoes, cooked vegetables, cream soups, gravies, sauces, casseroles and puddings (blended)</td>
</tr>
</tbody>
</table>
| Heavy cream, whipping cream, evaporated milk, half-and-half cream | • Soft fresh or canned fruit, mashed potatoes, cooked vegetables, cream soup, puddings, ice cream and custards (blended)  
  • Hot chocolate, milkshakes and smoothies |
<p>| Sour cream                            | • Soups, sauces and vegetables (blended)                                      |</p>
<table>
<thead>
<tr>
<th>Foods to use</th>
<th>Add to/use in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jams, jellies, honey, brown sugar, syrup</td>
<td>• Fruit, ice cream, desserts, smoothies or milkshakes, plain yogurt or puddings, custards (blended)</td>
</tr>
<tr>
<td>Nut butters (peanut butter, almond butter, or hazelnut spread)</td>
<td>• Sauces and milkshakes</td>
</tr>
<tr>
<td>Sweetened condensed milk</td>
<td>• Puddings (blended) and milkshakes</td>
</tr>
<tr>
<td>Plain yogurt (choose a higher fat brand)</td>
<td>• Sauces</td>
</tr>
<tr>
<td></td>
<td>• Mashed potatoes (blended)</td>
</tr>
<tr>
<td>Flavored yogurt (choose a higher fat brand) *some brands may be higher in sugar</td>
<td>• Mix with canned fruit and blend with milk or cream</td>
</tr>
<tr>
<td></td>
<td>• Blend with fruit, juice, or whole milk to make a smoothie</td>
</tr>
<tr>
<td>Flaxseed oil (up to 1 tbsp per day)</td>
<td>• Soups and milkshakes</td>
</tr>
<tr>
<td>Olive or canola oil</td>
<td>• Soups, casseroles and milkshakes</td>
</tr>
<tr>
<td>Pesto sauce</td>
<td>• Fish, chicken and mashed potatoes (blended)</td>
</tr>
</tbody>
</table>
### Foods to use

<table>
<thead>
<tr>
<th>Foods to use</th>
<th>Add to/use in</th>
</tr>
</thead>
</table>
| Ice cream, frozen yogurt, sherbet (avoid ice cream with chunky pieces as these don’t blend well) | • Canned fruit (blended)  
• Milkshakes and smoothies |
| Avocado | • Smoothies |

Foods with this symbol are higher in sugar. People with diabetes should eat these foods in moderation.

### Ways to add protein

Protein helps your body to heal and fight infection. Foods high in protein include meat, fish, poultry, milk products, eggs, nuts and beans (chickpeas, kidney beans).

Try these ideas to help get the protein you need:

<table>
<thead>
<tr>
<th>Foods to use</th>
<th>Add to/use in</th>
</tr>
</thead>
</table>
| Well-cooked eggs | • Casseroles and mashed potatoes (blended)  
• Soups (beaten eggs) |
<p>| Tofu | • Soups, sauces, chowders, casseroles, pasta, smoothies (blended) |</p>
<table>
<thead>
<tr>
<th>Foods to use</th>
<th>Add to/use in</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skim milk powder</td>
<td>• Cold foods like drinks, milkshakes, yogurt, puddings and custards</td>
</tr>
<tr>
<td></td>
<td>• Hot foods like casseroles, sauces, mashed potatoes, soups, gravies and blended meats</td>
</tr>
<tr>
<td></td>
<td>• You can also add it to milk to make ‘double milk’ (see Recipes section)</td>
</tr>
<tr>
<td>Whole milk, soy milk, buttermilk, evaporated milk, yogurt</td>
<td>• Milkshakes and smoothies</td>
</tr>
<tr>
<td></td>
<td>• Cream soups and vegetables (blended)</td>
</tr>
<tr>
<td></td>
<td>• Fruit (blended)</td>
</tr>
<tr>
<td>Dairy/soy cheese</td>
<td>• Casseroles, potatoes, soups and cooked vegetables (blended)</td>
</tr>
<tr>
<td>Cottage, ricotta, or feta cheese</td>
<td>• Casseroles, canned or soft fresh fruit, soft-cooked vegetables (blended)</td>
</tr>
<tr>
<td>Smooth peanut or almond butter</td>
<td>• Milkshakes and smoothies</td>
</tr>
<tr>
<td>Meat, fish and poultry</td>
<td>• Casseroles and soups (blended)</td>
</tr>
</tbody>
</table>
Recipes

Vegetable-Meat Combo
› 1/2 cup (125 ml) cubed, cooked beef, ham, chicken, or fish
› 1/2 cup (125 ml) cooked vegetables
› 1/4 cup (60 ml) whole milk

Blend until smooth. Heat and serve.

All-In-One Blended Meal
› 2/3 cup (150 ml) minced meat
› 1/3 cup (75 ml) mashed potatoes
› 1/3 cup (75 ml) cooked vegetables
› 3/4 cup (175 ml) cream soup
› 2 tbsp (30 ml) broth or gravy

Blend until smooth. Heat and serve.

Cream of Vegetable Soup
› 2 cups (500 ml) whole milk
› 2 cups (500 ml) cooked vegetables
› 3 tbsp (45 ml) margarine
› 1 tbsp (15 ml) flour
› 1/4 tsp (1 ml) onion powder
› 1/2 tsp (2 ml) salt

Blend until smooth. Heat until mixture thickens and bubbles, stirring occasionally. Simmer for 1 more minute.
Mushroom Soup
› 1 1/2 cups (375 ml) soup stock
› 3 oz. (90 g) cheddar cheese, cut in cubes
› 1/3 cup (75 ml) skim milk powder
› 1/4 cup (60 ml) mushrooms (cooked or canned)

High Protein Milk (‘Double Milk’)
› 1 cup (250 ml) whole milk
› 1/4 cup (60 ml) skim milk powder

Add milk powder to milk. Stir until dissolved. Refrigerate. Can be used:
• As a beverage
• In milkshakes
• For blending fruits and vegetables
• In soups and puddings

High Protein Milkshake
› 1/2 cup (125 ml) whole milk
› 2 tbsp (30 ml) skim milk powder
› 1/2 cup (125 ml) vanilla ice cream
› 1/2 tsp (2 ml) vanilla extract

Place all ingredients in blender and mix well. Serve cold. To change the flavour, try adding chocolate or strawberry syrup.
High Protein Eggnog
› 1/2 cup (125 ml) eggnog base (see below)
› 1/4 cup (60 ml) whole milk
› 1 tbsp (15 ml) skim milk powder
› Sprinkle of cinnamon or nutmeg (optional)

Place all ingredients in blender and mix well. Add a tiny sprinkle of cinnamon or nutmeg on top of eggnog, if you like. Serve cold.

High Protein Eggnog Base
› 1-2 tsp (5-10 ml) sugar
› 1 cup (250 ml) whole milk
› 1/4 tsp (1 ml) vanilla
› 1 tbsp (15ml) egg substitute (like Egg Beaters®) - do not use raw eggs

Beat eggs slightly. Add sugar, beat well. Gradually add milk to egg mixture, beating well. Blend in vanilla. Refrigerate. If not used within 48 hours, throw it out.

Chocolate Banana Shake
› 1/3 cup (75 ml) chocolate milk
› 1/3 cup (75 ml) evaporated skim milk
› 2 tbsp (30 ml) skim milk powder
› 1/2 medium banana

Place all ingredients in blender and mix well. Serve cold.
Peach Yogurt Smoothie
› 1/2 cup (125 ml) sliced or canned peaches
› 1/2 cup (125 ml) plain yogurt
› 1/2 cup (125 ml) whole milk
› 1 tbsp (15 ml) honey
Place all ingredients in a blender and mix well. Serve cold.

Orange Pro Frost
› 1/2 cup (125 ml) orange juice
› 1/2 cup (125 ml) ice cream
› 2 tbsp (30 ml) skim milk powder
Place all ingredients in a blender and mix well. Serve cold.

Chocolate Peanut Butter Shake
› 1/2 package Carnation Breakfast Essentials®
› 2 tbsp (30 ml) smooth peanut butter
› 1 cup (250 ml) whole milk
› 1/2 cup (125 ml) chocolate ice cream
Combine all ingredients in blender and mix well. Serve cold.
Creamsicle Shake

› 1/2 cup (125 ml) orange sherbet
› 1/2 cup (125 ml) vanilla ice cream
› 1 cup (250 ml) whole milk
› 1/4 cup (60 ml) skim milk powder

Combine all ingredients in blender and mix well. Serve cold.
