

Options for Non-Urgent Care

For your convenience, many family practices provide coverage outside of normal office hours. You may call your family practice office for information on how to see the on-call doctor. This guide has a list of walk-in clinics for the Halifax area.

Non-urgent care includes any illness or injury for which you would normally visit your family doctor. This may include, but is not limited to, the following:

- › earache
- › colds, cough, sore throat
- › immunizations
- › injections
- › minor cuts or abrasions (scrapes)
- › minor sprains and strains
- › prescription refills
- › rashes

You may check with Triage if you are not sure.

**If you do not have a
family doctor or nurse practitioner:**

Please visit <https://needafamilypractice.nshealth.ca>
or call 811 (Monday to Friday, 10 a.m. — 6 p.m.)
