

We're working on a new website and we need your help.

We are looking for 2-3 Patient Family Advisors to join our Steering Committee.

Your experience and knowledge as a former cancer patient/survivor or family member can help us make the Cancer Care Program's website more patient focused and a trusted source of all cancer related information for Nova Scotians.

Do you:

- have personal experience or interest in the cancer system?
- use websites to find cancer related information?
- have an interest in working with a group of health professionals and patients?
- have the time to attend a one-hour meeting every two weeks during business hours?

If you answered yes to the questions above, please call or email Leslie Hill to learn more. Call toll-free 1-866-559-2267, option 4 or email leslie.hill@nshealth.ca.

Deadline to apply is August 23, 2021.

Please note:

- Those interested in joining will need to complete a short application and participate in a phone or video interview.
- Successful applicants must also agree to attend a Volunteer General Orientation in their region, sign a confidentiality statement with Nova Scotia Health and complete a Criminal Records Check.
- Current Nova Scotia Health employees, Community Health Board volunteers and elected officials are not eligible for consideration.
