

QEII Health Sciences Centre

The QEII Health Sciences Centre takes care of adults from across Nova Scotia, the Maritimes and Atlantic Canada. Specializing in heart health, cancer care, neurosurgery and organ transplantation, it's also a leading research and academic centre for care professionals. We're at the precipice of major change in care delivery at the QEII Health Sciences Centre. After many years of planning, the future of the QEII Health Sciences complex is taking shape through the QEII New Generation project.

The QEII Health Sciences Centre is made up of 10 buildings. Located in Halifax, Nova Scotia, the QEII spans both the Halifax Infirmary and Victoria General sites, with more than 700 physicians, 7,000 staff and 1,200 volunteers.
